

POWER COMBO!

Power Combo Connection Guide

DTC100 HDTV/Digital Receiver & Digital HDTV-Ready Monitor

Note:

The S-Video connection provides the best analog picture quality, and is recommended for use with analog TVs and other components equipped for S-Video. Remember to connect audio cables as well for sound to go with the S-Video picture. Or, to get Dolby Digital[®] sound, connect a Dolby Digital[®] receiver and speakers (optional).

The HD Monitor Out / (S)VGA2 In connections will give "Phenomenal" picture quality when used to display HD TV programming on a Digital HDTV-Ready Monitor. Remember to connect audio cables as well for sound to go with the HD Monitor Out / (S)VGA2 In picture. Or, to get Dolby Digital[®] sound, connect a Dolby Digital[®] receiver and speakers (optional).
